

United States Bankruptcy Court
Western District of Texas
2002-02Pro
(Temporary one year and one day position)

Position: Applications Developer/PERL Programmer

Closing Date: OPEN UNTIL FILLED

Location: ***Preferred*** Duty Station 615 E. Houston, San Antonio, Texas
This is negotiable.

Starting Salary: CL28 (up to \$51,927)
Position is eligible for full federal benefits.
See attached page for a full description of benefits package.

Position Overview:

To analyze, design, code, test, document and implement client server and web based applications. Provides customer support. Writes and maintains software products and documentation for the court unit and/or for nationally used products. Provides analysis of user needs and codes programs to best benefit the court. Some troubleshooting and software installation duties may require working non-business hours including weekends and/or holidays. Some travel may be required.

Minimum Qualification Requirements:

Three years programming experience with specialization in the following areas:

Unix, Linux, Solaris, Windows 98/NT operating systems. Visual Studio development platform (VB, Visual C++) with a Perl, Java (servlets, BEANS, jsp) back end. Expertise with one or more of the following: HTML, ASP (vbscript or javascript). Experience with MS, SQL and Informix. Experience with Crystal Reports. Exposure to Informix under UNIX is a plus.

Application Procedures: Candidates interested in applying should submit a cover letter and resume with a salary history to Patty De La Garza, Human Resources 2002-02Pro at 615 E. Houston, Suite 546, San Antonio, Texas. Information should be *received* in Human Resources by January 25, 2002. Faxes are accepted (210) 472-6215. You may send resumes electronically to Patricia_Delagarza@txwb.uscourts.gov

Expenses for interviews or relocation are not authorized for reimbursement. This position is subject to mandatory electronic deposit of salary payments.

Please note that final candidates will undergo a background check and will be asked to provide samples of their Perl programming expertise to determine level of skill/knowledge.
